

NARRATING WINDS

Verse 1:

**Sitting here under a tree
I feel the time is fading away
Birds are flying high in the sky
Making me feel like I wanna stay
A day ago you broke my heart
Just the thought rips me apart
I hope for you that he's the one
You were always looking for**

Bridge:

**Winds are blowing and take away
The sorrows of the day
Step by step I loose control
Set me free**

Refrain:

**Narrating winds are telling me
I'd come back to you
Narrating winds are telling me
Our love is true**

Verse 2:

**I dream of you, but you are far
You are almost out of reach
But I know the day will come
We meet again on the beach
In my dreams I see you
Stepping up to me and say
Give me your hand and I lead you
To our place so far away**
