

NO MONEY BLUES

Verse 1:

When I wake up I wonder why
I'm totally broke and not a rich guy
I worked so hard my whole life long
I don't understand what I did wrong
All my friends have a nice car
I have to walk no matter how far
In the fridge there's nothing to eat
But I have kids, kids to feed

Bridge:

I go to work day by day
with nothing in return
It's barely enough to pay the bills
I feel like I'm gonna burn

Verse 2:

The phone rings and I'm afraid
Somebody's callin' I haven't paid
I check my mail and hope to find
No more bills what would be fine
My girlfriend left with another guy
Who sure is richer than I
I check my things I don't need
For something to sell not too cheap

Bridge

Refrain:

No money in my purse
no money in the bank
I need some cash to feel alive
No butter on my bread
no gas in the tank
I sing this song to stay alive

Guitar Solo

Verse 3:

Whenever I think that's the end
I get help from a good friend
I'm sitting back with my guitar
Singing songs I know so far
Whenever I sing the no money blues
I am sure it can't come worse
With you on my side I feel good
Even if I'm in such a bad mood

Bridge

Refrain
