

SILICON CITY

Verse 1:

**Yesterday, I was laying on my bed
I was thinking about you baby
and all the good times that we had
Yesterday, the city was my dream
But now it has become
the greatest nightmare I've ever seen**

Bridge:

**Take it away – don't stay
Take it away – don't stay
Take it away – don't stay
Take it away – don't stay**

Verse 2:

**The day is dying, I don't know what to do
My feelings and my thoughts are still with you
The sky is cloudy, rain is falling down
I know it's just another day, my life is just a fraud**

Bridge:

**Take it away – don't stay
Take it away – don't stay
Take it away – don't stay
Take it away – don't stay**

Refrain:

**Hearts are cold and money is made in Silicon City
You brought me here and you wanted to stay in Silicon City
Now you run away and you left me alone in Silicon City
(*The sky is covered with fire and smoke in Silicon City*)
I am totally lost and I don't know where to go**
