

# **SPREAD YOUR WINGS**

**1 x Intro**

**Vers 1:**

**Sitting at the window you are staring at the sky  
watching the planes pass by  
And you are wondering when time will have come  
You are taking off with one**

**Bridge:**

**In your dreams you're flying so high  
Leaving all the pain behind  
You feel free and your troubles are gone  
Things seem so small up here**

**Refrain:**

**Lay back and close your eyes and try to free your mind  
Spread your wings and fly  
So you can feel the wind and you can see the sun  
Like a bird in the sky**

**Vers 2:**

**Sometimes you feel like you don't belong  
in the place where you just are  
Follow your soul and listen to your heart  
And you will know where to go**

**Bridge / Refrain / Solo**

**Vers 3:**

**Far, far away is the island of your dreams  
And only you know where  
whenever you reach the end of the rope  
it's waiting for you right there**

**Bridge**

**2 x Refrain**
