

VAMPIRE

Verse 1:

**It's cold and dark, I'm hungry as hell
I'm searching for blood, which tastes so well
Hiding in the streets like a creature of the night
I'm waiting for you to get my bite
My body and soul are out of control
I can't stop myself I live with this spell
All night long I'm waiting for you
I need blood, the blood from you**

Refrain:

**I'm not alive, I cannot die
I have my own – empire
I love the night and sleep through the day
People call me – a vampire**

Verse 2:

**I hate the sun and moon is my friend
This will remain until the end
I'm misunderstood and haunted by all
No matter if it's spring or fall
I'm on the run – I cannot stay long
Leaving the place where I belong
Immortal forever I sit here and wait
For you to come so I get my bite**

Refrain:

**I'm not alive, I cannot die
I have my own – empire
I love the night and sleep through the day
Most people call me – vampire**
